

**MINISTRY UPDATE FROM DPM-NEPAL**

**August 2019**

Dear Friends

Our DPM-Nepal Director, Ps. Gopaljee, recently sent us several testimonies. We were really encouraged by these as they show that Derek's teaching in the Nepali language continues to bring much spiritual revelation and encouragement for the believers in Nepal. Here's just two of the testimonies which we thought you may also find encouraging!

"I am very grateful for the Derek Prince books which have helped me in my spiritual life and also for teaching the believers. Derek's books are so practical and easy to understand; I am a great fan of his books. I had many titles of Derek's books; eventually they were read by several pastors and leaders who came back to me and wanted more titles for their study and to give to other needy people."

"Thank you for providing the Derek Prince books to us and to our church. Compared to other Christian books, Derek's books are so easy to understand on important subjects like foundations, faith, the Holy Spirit, curses and blessings, etc. No other Christian books available in the Nepali language have such a spiritual explanation which influences the reader. Our church members; other pastors and leaders surrounding our places have also been greatly blessed. We are very thankful to the Derek Prince office for arranging to translate them into the Nepali language. Many believers and even leaders do not understand English. For us, availability of Derek's books in the Nepali language has been a great blessing. Actually, Derek's books have become a kind of spiritual lifeline."
