

1 NOTICEABLY BETTER

Noticeable reduced rebound and thus full transmission of the power of impact onto the work-piece.

Fatigue-free working gentle on the joints thanks to low vibration on impact.

Handle-protection sleeve with patented rubber coating to compensate failures.

2 MEASURABLY BETTER

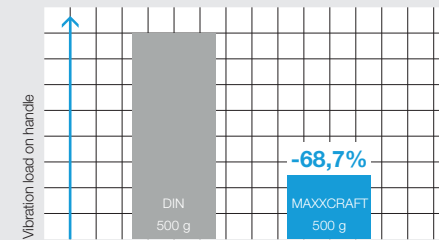

The increase of the power of impact with a simultaneous attenuation of the vibration on the handle has been tested and confirmed by ibe - Ingenieurbüro für Ergonomie.

Impact power measurement* 500 g locksmith's hammer:

Impact power on pendulum ram impact testing machine

Vibration load measurement* 500 g locksmith's hammer:

Vibration load in impact on steel

* Schematic portrayal of the measured results for the purpose of clarification.
