### Training Duration:

Allow 1-2 Days

Prices are per delegate  
Terms & Conditions overleaf.

## Course Details

### Overview:

This is a two day course involving a combination of theory and practical application, providing the technical skills and knowledge to effectively plan, observe and safely enter a confined space.

### Purpose:

This course will provide you with the skills and knowledge, as an entrant or observer, to identify the types of confined spaces and hazards and risks associated with working in a confined space. It will also cover the atmospheric testing and equipment required to establish a planned and safe entry, as well as the correct emergency procedures in the event of a rescue.

### To cover Unit standards as follows:

- \* Unit 17599 Plan a confined space entry (Level 4, Credits 5)
- \* Unit 18426 Demonstrate knowledge of hazards associated with confined spaces (Level 3, Credits 4)
- \* Unit 25510 Operate an atmospheric testing device to determine a suitable atmosphere exists to work safely (Level 3, Credits 4)

### Course Objectives:

Participants will gain theoretical knowledge and practical skills in:

- \* Identify required legal documents covering confined space entry
- \* Provide examples of confined spaces, listed and categorised
- \* Identify the main hazards of confined spaces are identified in terms of their potential for serious harm
- \* Identify control measures to eliminate or minimise the confined space risks
- \* Conduct confined space entries (various scenarios)
- \* Conduct confined space rescues (various scenarios)
- \* Develop an emergency procedure plan
- \* Operate an atmospheric testing device to determine a suitable atmosphere exists to work safely.

### Outcome:

Upon successful completion of the course your record of learning will be updated to include the NZQA Unit Standards attained through the course. You will receive a certificate and ID Card as proof of training & competency. Processing can take up to 30 days.
