COVID-19 Response Plan for Safe Hire Limited

The health and safety of our staff, customers and suppliers is our top priority as we navigate the ongoing COVID-19 situation together. Safe Hire are following the current advice available from the New Zealand governments and as a provider of equipment for essential services, we are doing what we can to provide to essential services under the current situation.

We are implementing a number of changes to help ensure both your and our work sites are safe for all. Safe Hire are putting these steps in place to restrict any potential for spread and contact:

- We will operate a reduced and changing staff level in our premises, on an on-call and pre planned basis only.
- We are asking our staff to maintain and respect physical distancing from clients. Please do the same in return.
- We be using extra protective equipment and hygiene procedures, with all hire equipment being disinfectant wiped and cleaned properly before and after hire.
- When the equipment arrives on site, we will contact the hirer to confirm they are able to use it. On hire completion we will ask for the customer to leave the equipment in a place that we can access whilst maintaining social distancing.
- We ask that customers please make sure all equipment coming back for return are cleaned down by you with disinfectant on all hand controls and “touch” surfaces.

(“Equipment” means all Equipment (including but not limited to access machinery and related gear, portable buildings, temporary fencing, barriers, and/or any accessories that may also be included.)

We believe in the power of a supportive community and will continue to support and update our customers and people with changes as needed.

If you have any questions on the above please don't hesitate to call or email.

Thank you for your understanding.

On behalf of the Safe Hire team.
